DETAILED ACTION

Allowable Subject Matter

Claims 1-8, 19-28 are allowed.

The primary reason for the allowance of claims 1 and 22 is the inclusion of mounting a line of adhesive through which permeation is measured between two plates. It is these features found in the claim, as they are claimed in the combination that has not been found, taught or suggested by the prior art of record, which makes this claim allowable over the prior art.

The primary reason for the allowance of claim 22 is the inclusion of supplying carbon¹⁴ monoxide to measure permeation. It is these features found in the claim, as they are claimed in the combination that has not been found, taught or suggested by the prior art of record, which makes this claim allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
